ADVANTAGES OF DIGITAL PRINTING

• HI-DEFINITION PRINTING

- ✦ Realistic and ultra-fine looking product.
- ✦ Capturing the finest details of the design and the authentic image.

• MINIMAL-REPETITIVE PRINTING

- ✦ Each tile has its own uniqueness that can bring out it's natural individualistic look.

• COLOUR & TONE

- ✦ A lifelike design style product.

• CUSTOMIZATION

- ✦ Design and concept can be tailored made.

• UNLIMITED PRINTABLE SURFACES

- ✦ Ability to print on all surfaces to make a genuine looking product.

• PRODUCTION CONSISTENCY

- ✦ From time to time, shade variation is stable.

• PRODUCT DEVELOPMENT EFFICIENCY

- ✦ More trendy product in a quicker time.

Each different tiles series are produced to meet different performance requirements. For specific product technical performance, please request from Niro Granite sales team or their agent or distributor.

Colour Variations: Since the colour reproduction in this printed piece will vary from the actual tile colours, final selection should be made from tile samples. Colour, shade and glaze variations may exist due to the inherent characteristics of porcelain tile.

Due to the low porosity of porcelain tiles, an Improved High Performance Cementitious adhesive in accordance to BS EN 12004 & ISO 13007-1 is highly recommended for proper installation. Products that meet this standard are available amongst leading adhesive manufacturers. Please seek expert advice from adhesive manufacturers for proper selection and application.

SHADES AND TONALITIES

 U1 UNIFORM FROM TILE TO TILE	 U2 SLIGHTLY NOTICEABLE FROM TILE TO TILE	 U3 MODERATELY NOTICEABLE FROM TILE TO TILE	 U4 DISTINCTLY NOTICEABLE FROM TILE TO TILE
 U1 Uniform from tile to tile The range of colours and tones within the same shade is relatively uniform from tile to tile. Minimal to no difference among pieces from the same production run.	 U2 Slightly noticeable from tile to tile The range of colours and tones within the same shade is slightly noticeable from tile to tile. Clearly distinguishable differences in design or pattern with similar or slight change in colour tones.	 U3 Moderately noticeable from tile to tile The range of colours and tones within the same shade is moderately noticeable from tile to tile. Clearly distinguishable differences in design or pattern.	 U4 Distinctly noticeable from tile to tile The range of colours and tones within the same shade is distinctly different from tile to tile. Random colour differences from tile to tile, so that one tile may have totally different colors from that on other tiles. Final installation can be unique.
